TECHNICAL SURVEILLANCE COUNTER MEASURES

DON'T WAIT UNTIL YOUR PRIVACY IS IRREVOCABLY COMPROMISED

Call **xFx TSCM** (Technical Surveillance Counter Measures) to learn how our
bug-detection services can keep your corporate information confidential.

Devices like these
listening bugs
are very small and
difficult to detect.

Our TSCM Bug Detection Services Encompass:

- Real-time RF spectrum logging & analysis (high level government standard)
- Network vulnerability & wiremapping
- RF signals, interference & directional finding

Our Counter-Surveillance Services Cover:

- Corporate and industrial espionage
- Executive offices, boardrooms, hotels, chalets, private residences, yachts, vehicles and aircraft
- V.I.P., executive, corporate and personal privacy
- Business conferences, litigations and divorces

We specialize in the complete detection & neutralization of:

- All up-link cell band and Wi-Fi signals
- Audio-video transmitters
- GSM – 2G – 3G – UMTS – LTE – GPS
- Wi-Fi rogue access points
- Wi-Fi man-in-middle attacks
- Wi-Fi P2P real-time audio-video espionage
- Bluetooth transmitters
- All analogue and digital RF transmitters
- Electronic dormant burst-type transmitters
- Covert Video Camera Surveillance

A multitude of **sophisticated equipment** is needed to properly **detect & neutralize** today's high-tech listening devices
