

YOU MIGHT BE SHOCKED TO LEARN THAT YOUR PRIVACY IS AT RISK!

Whether you're an **executive, lawyer, celebrity** or **housewife** involved in confidential business or personal affairs, you could have **people listening** into your **private conversations** and monitoring you with **sophisticated technical surveillance devices**.

Devices like these **listening bugs** are very small and difficult to detect.

DON'T WAIT until your privacy is irrevocably compromised. Call **XFX TSCM** (Technical Surveillance Counter Measures) to learn how our bug-detection services can **keep your personal information confidential**.

Sophisticated equipment such as this: **Real-Time Spectrum Analyzer** in the hands of a highly qualified **Technical Security Specialist** can find the most elusive listening devices.
